Index to Surveying and Land Information Systems, Volume 56

AUTHORS

Barnes, Grenville, Bruce Chaplin, and Mark Eckl. A medium-accuracy GPS methodology for cadastral surveying and mapping. 56(1): 3-12.

Brown, Alice G. A study of the current method for examining title to filled tidelands and wharf structures for the purpose of determining historic high and low water. 56(1): 27-36.

Buckner, R. B. ("Ben"). Comment and Discussion RE: "Obtaining accurate boundary locations for land information systems." 56(2): 119-21.

Burkholder, Earl F. Comment and Discussion RE: "Design of a local coordinate system for surveying, engineering, and LIS/GIS." 56(2): 119.

Chaplin, Bruce (see Barnes, Grenville).

Christensen, Albert A. J. The practice of piecewise fits with particular reference to property mapping. 56(3): 165-83.

Doytsher, Yerahmiel. Large-scale multi-informational urban mapping. 56(3): 156-64.

Dracup, Joseph F. Some notes on adjustments, weights, and accuracies directed to managers. 56(1): 13-26.

Dracup, Joseph F. Trilateration - a practical surveying method. 56(4): 212-218.

Dubeau, François. Solving horizontal circular curves with a large central angle. 56(1): 49-54.

Eckl, Mark (see Barnes, Grenville).

Fidis, Coventine. (see Kuang, Shanlong).

Fury, Rudolf J. Leveled height differences from published NAVD 88 orthometric heights. 56(2): 89-102.

Greenfeld, Joshua. Book Review of *Solving problems in surveying*. 56(2): 125-6.

Greulich, Gunther. TQM or bidding - an exercise in futility. 56(1): 43-8.

Han, Shaowei, and Chris Rizos. Centimeter GPS kinematic or rapid static surveys without ambiguity resolution. 56(3): 143-8.

Jeffress, Gary A. Book Review of *Surveying*. 56(1): 55.

Jeffress, Gary A. Book Review of *Brown's boundary control and legal principles*. 56(1): 55.

Kellie, Andrew C. Rivers, streams, and riparian boundaries. 56(4): 219-227.

Kuang, Shanlong, Coventine Fidis, and Floyd Thomas. Modeling of local geoid with GPS and leveling: A case study. 56(2): 75-88.

Loon, Joseph C. Guest Editor's Preface for Special Content Issue: "Aspects of large-scale topographic mapping." 56(3): 131-2.

Marsico, Salvatore A. Who owns my work? 56(4): 195-199.

McLaughlin, John D. (see Opadeyi, Jacob A. S.).

Opadeyi, Jacob A. S., and John D. McLaughlin. The cadastral records in Trinidad and Tobago. 56(1): 37-42.

Raabe, E. A., R. P. Stumpf, N. J. Marth, and R. L. Shrestha. A precise vertical network: Establishing new orthometric heights with static surveys in Florida tidal marshes. 56(4): 200-211.

Ramirez, J. Raul. Generating information from scanning Ohio maps (GISOM): The conversion of 7.5-minute quadrangles to DLG-3 files for the State of Ohio. 56(3): 133-42.

Rizos, Chris (see Han, Shaowei).

Salzmann, Martin. On the modeling of geometric quality for large-scale mapping projects. 56(3): 149-55.

Satalich, Jay. Optimal selection of constraints in GPS-derived orthometric heights. 56(2): 103-18.

Schwarz, Charles R. Book Review of *Geodetic network analysis and optimal design: Concepts and applications*. 56(3): 184-5.

Thomas, Floyd. (see Kuang, Shanlong).

Waters, Hugh R. Project management in establishing a land information system in a developing country. 56(2): 67-74.

ARTICLES

Loon, Joseph C. Guest Editor's Preface for Special Content Issue: "Aspects of large-scale topographic mapping." 56(3): 131-2.

Opadeyi, Jacob A. S., and John D. McLaughlin. The cadastral records in Trinidad and Tobago. 56(1): 37-42.

Han, Shaowei, and Chris Rizos. Centimeter GPS kinematic or rapid static surveys without ambiguity resolution. 56(3): 143-8.

Ramirez, J. Raul. Generating information from scanning Ohio maps (GISOM): The conversion of 7.5-minute quadrangles to DLG-3 files for the State of Ohio. 56(3): 133-42.

Doytsher, Yerahmiel. Large-scale multi-informational urban mapping. 56(3): 156-64.

Fury, Rudolf J. Leveled height differences from published NAVD 88 orthometric heights. 56(2): 89-102.

Barnes, Grenville, Bruce Chaplin, and Mark Eckl. A medium-accuracy GPS methodology for cadastral surveying and mapping. 56(1): 3-12.

Kuang, Shanlong, Coventine Fidis, and Floyd Thomas. Modeling of local geoid with GPS and leveling: A case study. 56(2): 75-88.

Salzmann, Martin. On the modeling of geometric quality for large-scale mapping projects. 56(3):149-55.

Satalich, Jay. Optimal selection of constraints in GPS-derived orthometric heights. 56(2): 103-18.

Christensen, Albert H. J. The practice of piecewise fits with particular reference to property mapping. 56(3): 165-83.

Raabe, E. A., R. P. Stumpf, N. J. Marth, and R. L. Shrestha. A precise vertical network: Establishing new orthometric heights with static surveys in Florida tidal marshes. 56(4): 200-211.
